Dubai, UAE

Professional Summary

Results-oriented **Warehouse & Operations Professional** with 2+ years of UAE experience managing **inbound/outbound warehouse operations, secure document logistics, and last-mile coordination**. Handled **400+ daily shipments and 5,000+ confidential documents** with 99% accuracy and full SLA compliance. Experienced in **inventory control, FIFO management, dispatch planning, RTO handling, KPI monitoring, and TAT optimization**. Supervised multi-functional teams and improved operational performance through structured process control. Proficient in **ERP/WMS, MIS reporting, shipment tracking, and advanced MS Excel**.

Professional Experience

Warehouse Operations Team Leader

Eco Express Courier and Freight Services L.L.C – UAE | Jan 2024 – Jan 2026

- Managed end-to-end **Inbound & Outbound Warehouse Operations**, handling **400+ Daily Shipments** and **5,000+ Confidential Bank Documents**, achieving **99% Inventory Accuracy**.
- Oversaw **Receiving, Sorting, Picking, Packing, Loading, Dispatch & RTO Processing** in full compliance with **SOPs and SLAs**.
- Supervised and scheduled **100+ Delivery Drivers**, optimizing **Route Allocation, Manpower Planning, and Last-Mile Delivery Operations**, improving **Delivery Success Rate and TAT**.
- Monitored key **Operational KPIs** including **SLA Adherence, TAT, RTO, Inventory Variance, and Dispatch Accuracy**.
- Generated and analyzed **MIS Reports, Daily Dashboards, Shipment Tracking Reports, and Performance Metrics** to support **Data-Driven Decision Making**.
- Ensured compliance with **Warehouse Safety Standards, Document Control Procedures, and Quality Assurance Protocols**.
- Coordinated with **Fleet, Customer Service, and Operations Control Teams** to resolve escalations and maintain **Service Excellence**.

Emission Testing Engineer

Royal Enfield Global Headquarters and Technical Centre – Chennai, India | Jan 2023 – Sep 2023

- Performed **engine and vehicle emission testing** on **dynamometer test cells** in compliance with **BS6** and **global emission regulations**.
- Executed **regulatory emission test cycles** and accurately measured **CO, HC, NOx, and CO₂ emissions** using **certified emission analyzers**.
- Analyzed **emission test data** and collaborated with **engine calibration** and **powertrain teams** to support **emission optimization**.
- Supported **homologation** and **certification activities** by preparing detailed **emission test reports** and **technical documentation**.
- Ensured proper **test cell setup, equipment calibration, and maintenance of emission testing equipment**, following **safety and quality standards**.

NDT Inspector (Asst.)

TVS Sundaram fasteners Ltd – Chennai, India | Jul 2022 – Dec 2022

- Assist certified NDT Inspectors in performing **UT, MT, PT, RT, and VT inspections** as per approved procedures and standards.
- Prepare inspection areas, **set up and calibrate NDT equipment**, and ensure proper test conditions.
- Support **visual inspection of welds, pipelines, structures, and pressure components** to identify defects.
- **Record inspection data and prepare reports**, checklists, and documentation accurately.
- Follow **HSE, quality, and client requirements**, coordinating with site and QC teams during inspections.
